

### NUTRIENT UPTAKE AT THE SMALL INTESTINES

1. Name the structure labeled A. \_\_\_\_\_
2. Where is the structure labeled A found in an animal's body? \_\_\_\_\_
3. In what system is the structure labeled A found? \_\_\_\_\_
4. Describe the physical structure of A. \_\_\_\_\_  
\_\_\_\_\_
5. Name another organ in the digestive system where a structure similar to structure A would be found.  
\_\_\_\_\_

Name \_\_\_\_\_

Regents Biology

6. Structure A allows for an increase in \_\_\_\_\_

7. Name the structure labeled B. \_\_\_\_\_

8. In what system is the structure labeled B found? \_\_\_\_\_

9. Describe the physical structure of B. \_\_\_\_\_

\_\_\_\_\_

10. What process occurs at structure A and structure B? \_\_\_\_\_

11. Describe the specific materials that are taken up at these two sites and explain what they are used for in the animal body.
