SOUNDING SMART!

FREE RESPONSE PRACTICE: CELL MEMBRANES

The group of words begins with the main topic of that cluster. Write a paragraph about that topic using all the terms that follow it. Show me how you can “sound smart” discussing this concept!

1. cell (plasma) membrane, selectively permeable, phospholipids, bilayer, proteins, transmembrane (integral) proteins, peripheral proteins, transport proteins, carbohydrates, glycoproteins, cholesterol, polar molecules, non-polar molecules, hydrophobic tail, hydrophilic head, protein channels, protein pumps (permeases), antigens
